[How do I submit a product?](#)

## **Guidelines**

Submitting a product for consideration on Special Needs Corner is simple and free of charge. All you have to do is send at least one non-returnable sample along with a press kit (if you have one –if not, media information you can provide) after completing the form below.

At any given time we may have many products waiting to be reviewed. Our reviews are made weekly and we will contact you to set up an interview if we wish to feature you or your company products. Because we are the sole hosts and editors of Special Needs Corner, reviews are often published 6-8 weeks from when have received your product samples. You will be notified via email when the review is published.

Please read our FAQ and legal disclaimer sections prior to submitting a request.

*Please email us the following information:*
